

# FREE STANDING STRUCTURES

---

Shade structures and walkways are increasingly being recognized as essential components for keeping visitors, goods and staff away from the elements, providing a better place to work. Our standard products offer a great value and are built to withstand all weather conditions.

## CONSTRUCTION

---

Our **Trellis Structures\*** are fabricated with extruded aluminum components, typically with 4" x 4" columns, 2" x 8" beams, & 2" x 4" cross members & have a variety of available tube sizes.

Our **Tension Structures\*** are fabricated with steel framing components & use shade cloth or typical awning fabric material.

Our **Walkway Structures\*** are fabricated with extruded aluminum components or roll formed material. Deck pans can be interlocking to provide a smooth deck or an up/down look. We can provide free standing units along with wall mounted units in varying designs.

*\*All three products typically require engineered concrete pad foundations.*

## DOCUMENTS

---

We provide job specific submittal drawings for each project. We use these drawings to communicate to you exactly what was purchased and how it will connect to your wall.

Color selection charts will be provided with our submittal drawings for your convenience and sample chips are available upon request.

## OPTIONS

---

Each of our structures have several options.

### **Trellis Structures**

Various material sizes available.

Finish options include: powder coat (standard colors or wood grain coat finish), kynar, or mill.

### **Tension Structures**

Cantilever or four post design.

Multiple fabric colors available.

### **Walkway Structures**

Multiple fascia sizes & color options are available.

## INSTALLATION

---

General Contractors all over the U.S. choose us because we provide a true turnkey solution for architectural shade solutions.

Our project management team is committed to completing your project on time. Whether the system is packed & shipped to your job site, or installed turnkey, it will include all necessary brackets, hardware, fasteners, & sealant.
