

LS - 225

LS - 225 ALUMINUM SUNSHADE

Architectural Fabrication's LS-225 is one of our extruded aluminum sunshade products, also known as a Bahama Shutter. This is a wall mounted shade system, that is an excellent option for sustainable building construction.

Please visit arch-fab.com to download revit models, specifications, or other product information.

CONSTRUCTION

The LS-225 Sunshade is a prefabricated product made from extruded aluminum components, including: 6063 Aluminum Alloy frame, Louver Blades, Turnbuckles (size varies depending on application).

OPTIONS

Sunshade can be installed at varying angles as per the shade requirement.

Multiple shapes, sizes, and finishes

Finish options include mill aluminum, powder coat, kynar, and anodized

INSTALLATION

General Contractors all over the U.S. choose us because we provide a true turnkey solution for architectural shade solutions.

Our project management team is committed to completing your project on time. Whether the system is packed & shipped to your job site, or installed turnkey, it will include all necessary brackets, hardware, fasteners, & sealant.

DOCUMENTS

We provide job specific submittal drawings for each project. We use these drawings to communicate to you exactly what was purchased and how it will connect to your wall.

APPLICATION

Our LS - 225 Aluminum Sunshades can be connected to multiple wall conditions, including: tilt wall, CMU, metal stud, steel tube (filled/unfilled), stick & brick, EIFS, and more.

WALL CONNECTION TYPES

BRICK OVER CMU WALL

BRICK OVER STUD WALL

EIFS OVER STUD WALL

HOLLOW CMU WALL

SIDING OVER STUD WALL

TILT WALL
