Architectural Fabrication

TITAN

In Greek mythology, Titans were giant deities of incredible strength who ruled during the legendary Golden Age.

The Titan Canopy System comes in more than just giant sizes, but possesses the same incredible strength and can help conquer your sun control issues.

TITAN ALUMINUM CANOPY

Architectural Fabrication's Titan Canopy offers multiple design options to choose from so you can make the canopy unique to your project.

Please visit arch-fab.com to download revit models, specifications, or other product information.

CONSTRUCTION

The Titan Canopy is a prefabricated product constructed from extruded aluminum components.

Made from 6063 Aluminum Alloy, the Titan Canopy's framework provides strength and flexibility.

OPTIONS

Skin material is pre-finished Kynar Sheet by Berridge, MBCI, Pac-Clad, or equivalent.

Overhead supports or no overhead supports.

Multiple lighting options: LED, fluorescent, etc.

Fascia options are available in multiple shapes, sizes, & finishes.

Finish options include mill aluminum, powder coat, kynar, & anodized.

Flush soffit panel option is also available.

INSTALLATION

General Contractors all over the U.S. choose us because we provide a true turnkey solution for architectural shade solutions.

Our installers are committed to completing your project on time. The Titan Canopy System install includes the flashing, sealant and hardware necessary to ensure proper drainage.

DOCUMENTS

We provide job specific submittal drawings for each project. We use these drawings to communicate to you exactly what was purchased and how it will connect to your wall.
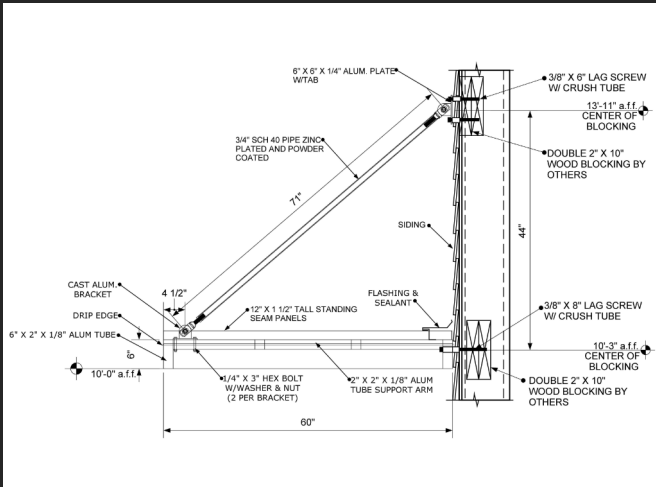

Color selection charts will be provided with our submittal drawings for your convenience and sample chips are available upon request.
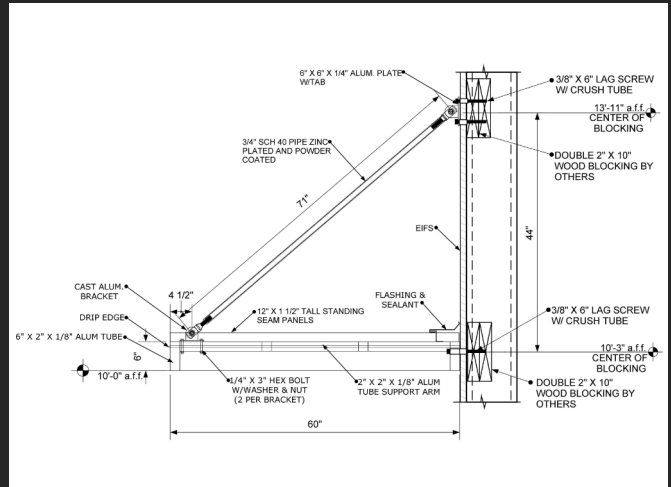

APPLICATION

Our Titan Canopy can be connected to multiple wall conditions, including:
tilt wall, CMU (filled/unfilled), stick & brick, EIFS, and more.
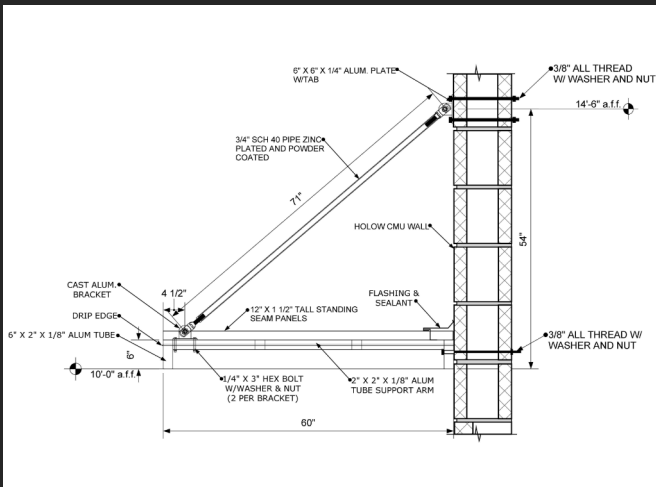

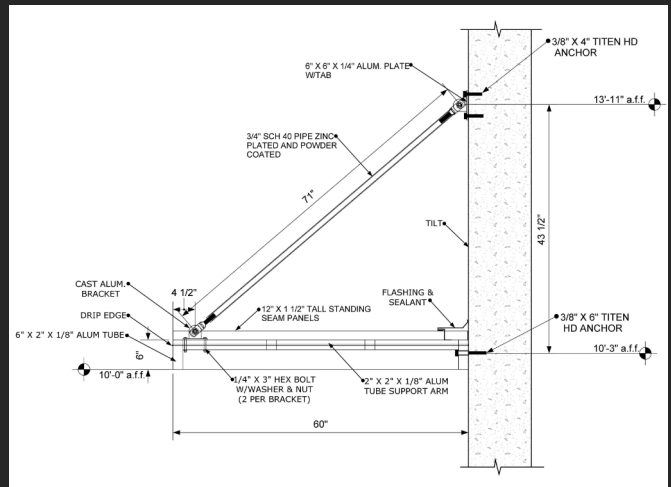

WALL CONNECTION TYPES
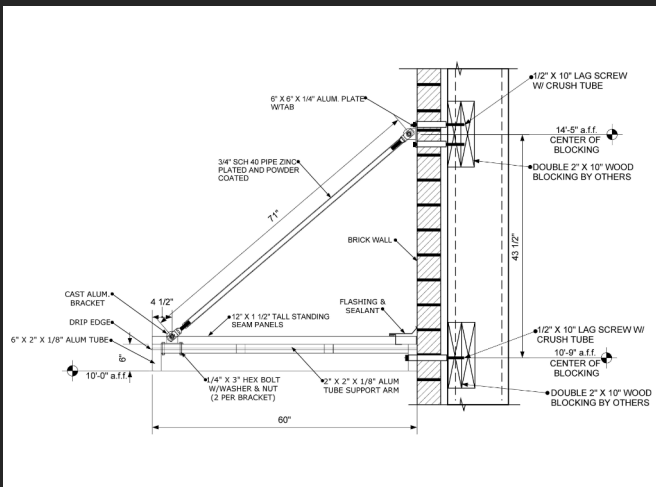

SIDING OVER STUD WALL

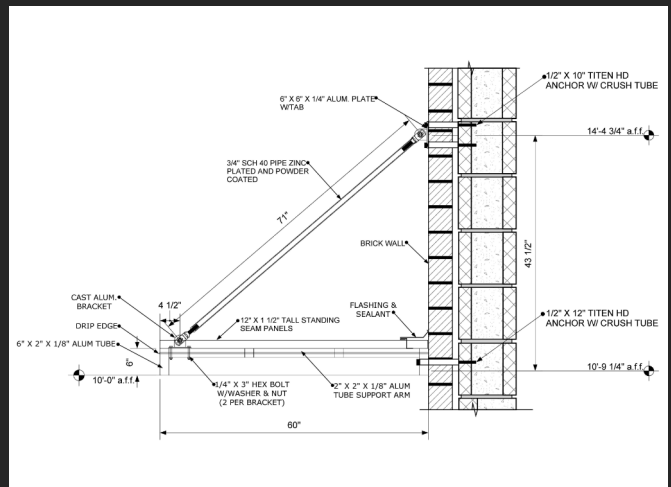

EIFS OVER STUD WALL

HOLLOW CMU WALL

TILT WALL

BRICK OVER STUD WALL

BRICK OVER CMU WALL
